"Besides doing our very best to give our customers the ultimate experience in purchasing their bicycles, we also give them our very best service and support after the sale. However, we don't believe we've become one of the largest bike shops in the country just by selling bicycles. We love our customers, and we support them as well as cycling advocacy by being one of the most community involved bike shops in the country. We think the cycling community appreciates that, as well." (Todd Kaib, Roswell Bicycles)
